FRANCE.

Tours, October 10.—Gambetta's proclama-

tion has the following: "By order of the

Republican government I have left Paris to

transmit to you the hopes of Parisians and

citizens who are seeking to deliver France

from foreigner. Paris, for seventeen

days, presents a spectacle of 145 million men

forgetting their differences to withstand the

invaders, who expected civil discord. The

revolution found Paris without guns or arms

of any kind. Four hundred thousand of the

National Guards are now armed, and 100,000

Mobiles and 60,000 regulars are assembled.

The foundries are casting cannon and the

women make millions of cartridges daily.

Each battalion of the Nationals have two

Mitralleuses and field pieces, and are prepar-

ing for sorties. The forts are manned by

marines and are supplied with artillery of the

greatest excellence and served by the best

gunners in the world. Hitherto their fire has

kept the enemy from erecting the smallest

work. The enceinte of the fourth, had only

500 cannon, now it has 3,800 with 400

rounds for each. Every defense

has its men at their posts. The Nationals

drill constantly behind the enceinte. This

is the third line of defense which is barricaded

and is adapted to the genius of the Parisians.

This has all been achieved calmly and orderly

Fire in Philadelphia.

PHILADELPHIA, October 9.—A large brick

building, having a frontage on Willow and

Hamilton streets of 110 feet, and on the West

side of Twelfth street of 150 feet, forming a

block square, was to-day damaged by fire.

The first floor, which was occupied

by L. B. Flanders, machinist and pattern

maker. His loss is probably covered by an in-

surance of \$30,000. The remaining part of

the entire structure, except the third story, which

was occupied by George W. Carr

& Co., umbrella and fine manufacturers. Carr

also owned the building. His loss is mainly

on machinery and building, and is covered by

an insurance amounting to \$100,000, divided

as follows: Stock, \$40,000; machinery and

fixtures, \$40,000; real estate \$20,000.

Every voter should be upon his guard to-
morrow against spurious ballots, which there
is good reason to believe, will be widely cir-
culated. Every man should compare the Re-
form ticket with the one printed in this paper,
which is correct.

GEN. COBURN has been faithful in every po-
sition he has ever held. He is "tried and
trusted." He has ability, experience and res-
pectability, and is the best Congressman this dis-
trict has had within at least twenty years.
Why change, then, for an inexperienced, less
able man, whose boast has been that he has
had no advantages of education? General
Coburn's defeat will be an insult upon the
good judgment of the people of this district.

The Prussians expect to commence the bom-
bardment of Paris the last of this week or the
first of next. The army of the Loire, said to
muster eighty thousand men, is reported as
marching on Paris. Several French successes
in small skirmishes are reported, but if true,
they will avail nothing. The Germans have
marked out their line of action and are steadily
pursuing it, and any delays are probably
parts of their plan. When they are fully
ready they will commence work, and then
look out for fighting.

GARIBOLDI has reached Tours, but what he
is going to do there is not stated. He will
probably organize a legion and uniform them
in red shirts, and we suggest that he arm
them with pikes, such as the rebels were go-
ing to use at the commencement of the war.
They will look very warlike, not to say blood-
thirsty, and will be just the weapon for the
fellows who have been clamoring for Garib-
oldi to come and lead them into the last ditch.
We are afraid Garibaldi will wish
himself back in Capri before he gets there.

Every Man's Duty.

To-morrow is election day. It is the duty
of every man to vote. He may not have been
especially interested in the campaign, he may
be disgusted with politics and politicians, and
he may think "they can get along" without
him, still it is his duty to vote. He owes it to
the country. If he is honestly disgusted with
officers or their actions, or honestly thinks
that candidates are unfit for the places they
seek, it is all the more his duty to declare
himself in the only effective way every citizen
can command. We are tired of these men
who are always complaining about corruption,
and the necessity of change, and yet
who are never ready to lift a hand if it in-
volves themselves. Too many of us are guilty
of apathy and indifference. This is a govern-
ment of the people nominally, but if the peo-
ple don't choose to govern themselves, is it
any wonder that rings and cliques spring up
to do it for them? If every man
will bear a hand, and try to redress the
grievances he thinks exist, the
result will soon be seen in a better gov-
ernment in all its departments, although the
particular things for which some strive may
be left unchanged. To act such a part may
involve some inconvenience—almost anything
worth having usually does—but it will pay.
A crying evil of our country is this indiffer-
ence of the majority to its government. Up-
on great questions they have opinions, but of
minor ones, of the details which are small
but so important, they think nothing. So
long as they are free from trouble, things may
go as chance directs; even when they are
robbed and oppressed they do not act. They
complain, it is true, but they do not act. This
is not right, and will, if long pursued, end in
destroying the republic. It may be nomi-
nally a republic still, but when the people
cease to take a part in it, it is no longer such
in reality. The evil is a graver one than most
people will admit; they will pooh-pooh at
such suggestions, and say that things are going
on very well, or they will come out of all right
in the end. If they do
some, one will have to work. Luck and
chance don't bring things out right, it is hard
earnest fulfillment of duty, and no man has a
right to throw his share upon anybody else.
We don't want to see any staying at home to-
morrow, or going away from the city when there
is no special necessity for it. Let every
voter, young and old, white or black, go to
the polls and vote according to the best of his
knowledge and belief. It will be a great
step toward real reform and toward attaining
the object of this government, when every
voter recognizes his duty and does it.

FASHION ITEMS.

The most fashionable silks have a good deal
of luster, but a soft finish.
Cloaks are made short, and generally of the
gored sack pattern, with large sleeves.
The feathers on bonnets this season are
placed on the side instead of on top, as for-
merly.
The Japanese parasols of painted silk and
paper are very fashionable this season for car-
riage use.
Sultane, the new red, is a very effective
shade for neckties and head-dresses, as it is
particularly brilliant by gas light.
The handsome woolen shawls come in plain
grounds with broad Roman stripes. They
will be much worn as carriage wraps.
One of the most jaunty styles of bonnet is
the Princess Alice, which has a pleated cape
to finish the back, and the front rolled over.
Sacks are made small and loose, with a
rolling collar; some of the prettiest are of
black, embroidered with gold or white braid.
The handsome opera cloaks are of white
plush, made in a sack shape with loose
sleeves, and trimmed with white feather
trimming.
The shawl suits, now so popular, are made
of the old fashioned gentlemen's long shawls,
with which the market is overstocked, as
there is no sale for them now-a-days.

How to read Novels.

The Book of fate of the heroes and heroines
is to be found at the end of volume III. One
has but to turn to it to know whether one
shall make their acquaintance or not.
For my part, I heartily pardon the man who
brings Cordelia to life (was it Oliver, or
Sterndale and Hopkins?) I would have
the stomach pumps brought for Romeo at
the fifth act; for Mrs. Macbeth I am not the
least sorry; but, as for the General, I would
have him destroy that swaggering Macduff
(who always looked as if he had just
slipped off a snuff shop), or, if not cut
him in pieces, disarm him, pink him, cer-
tainly; and then I would have Mrs. Macduff,
and all the little ones, come in from the slips,
stating that the account of the murder was a
shameful fabrication of the newspapers, and
that they were all of them perfectly well and
happy. The entirely wicked, you may mea-
sure without pity; and I have always admired
the German Red Riding Hood on this score,
which is a thousand times more agreeable than
the ferocious English tale, because, when the
wolf has gobbled up Red Riding Hood and the
grandmother in come two firebreathers, who
cut open the wolf, and out step the old lady
and the young one, quite happy. Thank you.

A Few Last Words.

Does any one question the need of reform
in this country? We think not. There is cer-
tainly no man blind or foolish enough to
assert that we have reached even comparative
perfection, and we doubt if many can be found
even among the politicians and members of
the ring, who honestly think there are not
great evils and abuses here. Take for in-
stance the taxes. We paid last year \$297,-
581 01. What has become of it? In 1865,
the last year of the war, when values were
higher than they have ever been since, when
all our expenses should have been greater,
when the jail and poor house were filled, and
when soldiers' widows and orphans were to be
warmed and fed, we paid \$278,286 24. Why
is there no greater difference and why is not
that difference a decrease instead of an in-
crease? What has become of the money? Have
you any Court House to show for it, any jail,
any poor house or any other large improve-
ment? There is a poor house, it is true, in
process of erection, but it is not three
months since the County Commissioners were
enjoyed from borrowing money to pay for it.
What became of the money? Where does it

The Ballad of King Corn.

By G. H. BARNES.
I passed by a field where the royal Corn
His hundred emerald flags unfurled;
Aglow with the glowing beams of morn,
With the crystal drops of dew impured,
And waved them out to the free wind's play,
And tossed his feathery plumes high,
And I heard the monarch proudly say,
In strains of rustic melody:
"I am king of the fruitful farm;
I'm rightful lord of the cereal band;
I sway the scepter of a strong arm,
In majesty over the fallow land;
The farmer's eye is alight with hope
When his shining plowshare turns the mold;
And the glowing gates of promise open
When he hides in the ground my germ of gold."
"The heart of the husbandman thrills a song
When my green blades pierce the mellow ground;
He delights to see me tall and strong,
He delights to see me tall and strong,
In the maize-month, east my shadows round;
And watching the August sunbeams fall,
And a matchless stow to my beauty bring,
He cries, 'Behold my stately Saul,
My Corn, over all his brethren king!'"
"My Corn, over all his brethren king!
My banners wave on hill-side and plain;
The world, for my glory and bounteous yield,
Proclaims me by right, 'King of the grain!'"
I make the laborer's freckled skin
With abundant gladness from my full hand;
And the toiling millions hunger-sad,
Would welcome my reign in every land.
"When the cool and soft September days
Bring a ripeness to my golden ears,
I'll fur my flags in the autumn haze,
Unplume my helmet and drop my spears;
Then, as I bow to the reaper's hand,
In the dewy hours of the harvest morn,
I'll hear the shout of the harvest band,
'Room for the king! the great King Corn!'"

THE CITY.

MINOR MENTION.
Council meeting to-night.

Several negro knock-downs at the Fair grounds Saturday.

Last grand Reform meeting this evening at the corner of Circle and Meridian streets.

The remains of the late Gustavus Schurman were deposited in the old cemetery yesterday afternoon.

Nathan Stevens has been appointed General Agent of the St. Louis, Vandalia and Indianapolis Railroad.

Rev. B. F. Foster, at present engaged in missionary work in this State, intends making Indianapolis his home.

The accommodation train on the Terre Haute and Vandalia road, will hereafter leave one hour earlier than heretofore.

A little son of J. N. Rose had a finger smashed on Saturday, at the Fair grounds, while playing with a corn sheller.

The work of securing places of entertainment for the members of the Methodist State Convention, which meets here next Sabbath begins to-day.

The Police and Fire Departments of this city have presented a handsome silver badge to Charles Leiva, Chief, Fire Engineer of the city of Richmond.

Professor Macallister, the Great Wizard, will begin his exhibitions of magic at Masonic Hall to-morrow evening, and continue them throughout the week.

The National Labor Reform Club, of this city, held a session this evening at their hall in Judah's Block, when a full membership attendance is requested. Those desiring to join the club can do so to-night.

At the regular meeting of the Union Depot Company, on Saturday, E. J. Peck resigned the Presidency of the company, and D. Rickerts was elected to succeed him. The resignation takes effect November 1.

The New Route to Fort Wayne.
The opening of the Fort Wayne, Muncie and Cincinnati Railroad, this morning, opens the country comprising Northeastern Indiana, and makes direct communication between Fort Wayne and Indianapolis. The want of this communication has been a serious commercial drawback to this city for years.

The line from this city through, is over the Bee Line (old Bellefontaine) to Muncie, where direct connection is made with trains on the Fort Wayne, Muncie and Cincinnati Road to Fort Wayne. The road passes through the richest portion of Northeastern Indiana, striking the towns of Eaton, Delaware, county; Hartford City, the crossing of the Logansport and Chicago Railroad; Montpelier, Blackfoot county; Keystone, Wellsburg, and Bluffton, the county seat of Wells county; and Murray, Eaglesville and Ossian in the same county; and Sheldon and Ferguson in Allen county. Each of these are prosperous towns, located in a rich section of the country, the products of which can now be placed directly in the markets of Chicago, Indianapolis and Cincinnati. Walnut timber, which in other sections of the line is nearly exhausted, is found along the line of this new road in abundance, besides large quantities of oak, poplar and ash.

The mail for Fort Wayne from this city is to be carried over this route, the first having left at 4:30 this morning.

Business men will see the importance of this new road, and of course govern themselves accordingly.

At a recent meeting of the Trustees of the Young Men's Christian Association, the drawing for term of office resulted as follows:

Trustees for one year—General Benjamin Harrison, T. P. Haughey and John H. Orr.

Trustees for two years—R. Sedgwick, Ingram Fletcher and E. C. Mayhew.

Trustees for three years—W. C. Smock, W. S. Hubbard and Hiram Lindley.

The Board organized by electing W. S. Hubbard, President; H. Lindley, Secretary, and E. C. Mayhew, Treasurer.

Rev. Mr. Blanchard announced to his congregation, last evening, that his pastoral labors will close here with the last Sunday in November. Rev. Mr. Stone, of Wisconsin, will probably fill the Unitarian pulpit during the month of December, and perhaps permanently.

Reverend day to-morrow.

Board of Trade.

At the meeting of the Board of Trade Directors, on Saturday afternoon last, J. Bernard was re-elected Secretary, and John W. Murphy, Treasurer.

The following committees were also elected: Committee of Arbitration—James C. Ferguson, chairman; George K. Share, D. A. Richardson, S. V. B. Noel, W. D. Wiles.

Committee of Appeals—T. B. Elliott, chairman; W. W. Woollen, George P. Evans, J. D. Vinnebeck, Wood Tousey.

Railroad Committee—George Merritt, chairman; Edward King, L. N. Andrews.

At the State Fair just closed, the total number of entries were 2,580; number of premiums awarded, 720; cash premiums paid, \$6,350; silver medals awarded, 27; bronze medals, 14; diplomas, 67.

SPEAKERS to-night, at the corner of Circle and Meridian streets: Hon. Thomas A. Hendricks, Major Kinney, of Kentucky, Hon. Thomas Cottrell and Edw. John Fishback.

LOCAL ITEMS.

Otis & Fowler make good pictures in all kinds of weather. Specimens of their good work may be seen at any time at their rooms, Nos. 24 and 26 East Washington street, or on the walk at the entrance to the same. Rembrandt's and the plain photos, and portraits of all sizes made by them at low prices.

Patent Step Ladders, the best thing out at Wilder's, opposite the New York Store.

Use good judgment in selecting a sewing machine and you will choose the reliable Howe. It is the machine to do general family work, as well as every other kind, and excels all others in durability. See it and its operations at No. 31 North Pennsylvania street, and Olin & Folts will give you a bargain.

Persons who did not have the opportunity of attending the fair last week and seeing the premium corsets displayed by Valentine can see the same and many other things at No. 34 West Washington street, now Mr. Valentine has constantly at his store an exhibition of his work equal to that at the fair, which the ladies will find to their interest to examine.

A Card.

The large sales of June and July having reduced our stock so that our assortment was broken, and as our removal will be somewhat delayed by our new rooms not being ready as anticipated, we thought best to make our assortment complete, and to that end Mr. Adams has purchased a beautiful line of goods, selecting from the patterns, and obtaining the very cream of the market in styles and qualities. We think we are able to show the most elegant line of Body and Tapestry Brussels ever seen in the West, while in Ingrains and Three-Plys we are very fortunate in the selection of the richest patterns and best goods. Although these goods are very desirable, we shall sell them at the very low figures current during our "clearance sale," and our customers can depend on finding what they want, at prices that can not fail to be satisfactory. Thanking our friends for their very liberal patronage, we would respectfully solicit a continuation of their favors.

Respectfully,
HENRY ADAMS & CO.

A better stock of oils can not be found, East or West, than Frank A. Boyd's. Frank is a business man and has an eye to business, and buys of business men and sells at business prices. Now then, if you know your business and buy at his business place, which is No. 22 South Meridian street. His burning and lubricating oils can not be equalled.

The very best bargains in Wall Paper can be had at Wilder's, opposite the New York Store.

Nothing but bargains may be expected at Browning & Sloan's. They buy in large quantities and closely sell at prices which always guarantee a repetition of the purchase. Pure spices, ground and unground, pure white lead and paints of all colors dry and ground in oil at rates which defy competition. See also their varnishes and their immense stock of brushes.

Andy Sharpe is the Bon Ton cigar man of the State, and manufactures the best cigars known to the smokers of the universe. Now, dealers, if you want cigars that will not be "dead stock," buy Andy's La Bon Ton, Dauntless, Hunkidori, Velocipede and Candidates, manufactured at 28 North Pennsylvania street. Chewers, try his Gosamer chewing tobacco.

A mouth-full of fat,
Fresh and delicious oysters is not to be objected to, especially when they come from D. Baizer's Oyster Bay, at No. 65 South Illinois street. They are received by him daily, and can be depended on as being fresh. Dealers, money is yours when you buy of him.

Wilder, dealer in Wall Paper, Window Shades and Step Ladders, is opposite the New York Store.

Handsome patterns of wall paper at living prices at A. Gall's Carpet Store. His stock is the largest and most attractive in the State, and it is one of his business principles never to be undersold. His window curtains are of every imaginable design and truly handsome and attractive.

Bingham & Co. will offer still greater bargains in jewelry and silverware this week. All styles of gold and silver watches for ladies and gentlemen there, at exceedingly low prices. Seek No. 50 East Washington street, with a few greenbacks, and you will get a host of nice things. Charms, sets, silverware, etc., there in great abundance, and at popular prices.

Save money at Wilder's in buying Wall Paper and Window Shades. 5 wsm

Ingrain carpets are still the favorites, and will be as long as they are made in such attractive styles and of such durable material. All Gall has these made to his own order and to suit the Indianapolis trade. Ladies, see to it that you show your appreciation of his enterprise by calling at 101 East Washington street.

For we are all a rolling, roll, roll, rolling, we are all a rolling down to No. 38 South Illinois street, where carpets, you know, and wall paper, you know, and decorations, you know, and oil cloth, you know, are selling at exorbitant low prices, which everybody knows. So roll in silver dollars and greenbacks, and roll out, ye bargains, and delight the multitude. 10-2t

Gentlemen, smoke Cobb's cigars. The Bon Ton, Champion and Cleopatra. They are just what you want if you are in hunt of something superior. The Corner Drug Store, opposite the Bates and Palmer Houses, is the place for pure drugs and fine perfumeries.

The air-pump was invented in 1654 by Otto Guericke, burgo-master of Magdeburg, Germany.

It is a well known fact that ice formed at a very low temperature will last much longer than that which has frozen at 32°.

High and low sounds are transmitted with equal velocity; but there is quite a difference in the transmission of intense and weak sounds.

One pound of Baron Liebig's concentrated beef is equivalent to forty-five of butchers' meat, and will make nine gallons of the best beef tea.

An astronomer of France, in 1700, asserted as a fact that lightning and thunder were "sulphur set on fire and shot out with great velocity."

Four volcanic craters have been discovered in the Island of Cheduba, through one of which mud, strongly tainted with petroleum, bubbles up.

The annual product of pepper is 75,000,000 pounds. Yet enormous as this supply seems, it would afford but a grain daily to each of the earth's population.

Animals killed for food when in a state of physical weakness have no flavor, and do not satisfy hunger. Hence, "animal spirits" may be taken as a synonym for flavor.

Two instances are recorded in Les Mondes of somnambulism being perfectly cured by the administration of bromide of potassium. From two to six grammes were given daily.

The Technologist asserts that the amount of friction generated at the journal of a grindstone is so small, that the advantage of anti-friction rollers will not pay their cost.

A red lead manufacturer of France has discovered that the use of milk to the extent of one quart daily, preserves his workmen employed in lead work free from any symptoms of lead disease.

Cow-tree is the name given by Humboldt to a tree upon the mountains of Venezuela, and which, being bored, gives forth a supply of white nourishing liquid like milk. It is at sunrise that this vegetable fountain flows most freely.

The Treasury Department at Washington uses envelopes of a peculiar greenish tint. It seems that all refuse from the manufacture of greenbacks, and all mutilated bills and stamps that are returned, are used for the manufacture of this particular paper.

A very desirable article for druggists, house keepers and others, has recently been invented. It is an adjustable rubber lip for bowls, basins and cups. It enables one to pour liquids from dishes without spilling, and thereby wasting the contents and soiling other articles, such as table covers, carpets, cloths, etc.

Clothing treated with tungstate of soda may be rendered non-inflammable. A concentrated neutral solution of this salt is diluted with about one-third water, and then mixed with three per cent. of phosphate of soda. It is used in the royal laundries of England. Even the lightest muslins dipped in it and dried will not take fire or burn.

A German telegraph operator has discovered a mode of sharpening, with mathematical accuracy, any number of steel or iron wires, by the agency of the magnetic current. The discovery may be applied to the manufacture of pins and needles, and do away with the present process of grinding the points, so injurious and extensively fatal to the workmen.

Mr. Wake has recently made some curious statements before the Microscopical Society of London, regarding experiments with powdered coal, chalk, and limestone in water. The three substances were operated with separately, but exhibited phenomena in most respects alike. He says that after remaining in water a week or so, some of the minute particles assume the form of vegetation of a black color, bearing one or more fronds. There are also gelatinous substances evolved, and little crystalline bodies which float about freely.

It is said that the following device which has recently been used at the Lewiston (Maine) mills, greatly economizes fuel. The coal to be burned is ground to a fine dust, which together with air enough to produce instantaneous combustion, is carried by a blower into the furnace where it is to be used. The coal dust leaps into flames like a flake of powder. It is claimed that this device saves sixty-three per cent. of the expense of making steam, besides, that the steam can be generated in one-half the time needed when ordinary fuel is used in the ordinary way.

Wise men are puzzling themselves to account for the fresh water which comes up through an iron tube, sunk fifteen feet through the constantly shifting sands of Cape Cod, from fifteen to twenty feet from high water and not more than three feet above it. The water in this tube rises and falls with the tide, yet more than one hundred barrels of water have been pumped from it at one time, without finding the slightest trace of saline matter. It is of such fine quality that vessels supply themselves for a sea voyage from this well.

Effect of the War on Trade.
The effect of the war on the staple trades in England was thus described in the circular of a leading London firm, issued about a fortnight ago: "The war in Europe, which was expected to militate disastrously against not only the chemical, but our other staple trades, had turned out better than was anticipated, especially in regard to the first named. On the one hand the demand for America has increased through English manufacturers having a monopoly—exportations in French and German bottoms to that country being almost suspended, and

THE EVENING NEWS.

MONDAY, OCTOBER 10, 1870.

THE CITY.

For additional City News see third page.

Mayor's Proclamation.

MAYOR'S OFFICE, October 10, 1870.

WHEREAS, An Act, approved March 5, 1869, entitled "An Act to regulate and license the sale of spirituous, vinous, malt and other intoxicating liquors," etc., amended by an Act approved December 19, 1869, prohibits the sale, directly or indirectly, of liquors upon any election day;

AND WHEREAS, A general election will be held in this city upon Tuesday, October 11, 1870; therefore,

Due notice is hereby given to liquor dealers, keepers of saloons and drinking places of every description, that the laws above referred to will be enforced upon that day.

Witness my hand and the seal of the City of Indianapolis, this 10th day of October, 1870.

DANIEL MACAULEY, Mayor.

Blue Monday.

A sort of "waiting for the verdict" day for politicians.

Only six head of cattle in the State House yard to-day.

THE EVENING NEWS is the paper to advertise in. It has the largest circulation in the city.

THREE real estate transfers filed this forenoon, having a total consideration of \$4,000.

EMERSON, the prince of negro minstrelsy, at Masonic Hall to-night. His last appearance here.

A LARGE quantity of fine water-melons arrived in the city to-day, which were grown near Dayton, Ohio.

FRANCIS J. HANFORD, aged three days, is the innocent cause of much high-stepping about the Journal office.

JUDITH BLAIR, this forenoon, overruled the motion of the defendant in the Lawton divorce case, for a new trial, and the case was taken to the Supreme Court.

A RESIDENT of New Orleans, who was stopping in this city last week on his way home from the East, purchased a large bill of goods of Albert Gall, saying that he obtained better bargains here than at any point he had visited.

THE cavalry recruiting office, which has been established here for the last few months, is ordered, by the War Department, to discontinue operations on and after to-day. It is not yet ascertained to what point the office will be transferred.

THE members of Capital Lodge, Temple of Honor, will meet at the office of Esquire Sequester, under Good Templar Hall, this evening, to make arrangements for attending the funeral of the late William Moffitt. A full attendance is desired.

A RECEPTION meeting will be held to-night at the corner of Pennsylvania and Washington streets. If the weather is inclement the meeting will be held in the hall of the House of Representatives. A German meeting will also be held at Mozart Hall.

BURGOLARS broke into the United States recruiting office last night, or rather picked the lock and went in, and robbed it of nine dollars and a half in money, and some postage stamps. The desks in the office were broken open, and the papers strewn all over the floor. Rather a strange place for such operations.

Special Response.

At the last meeting of the Board of Managers of the "Orphan Home," it was found that only three or four hundred dollars remained in the treasury, with which to commence a long winter. All felt deeply troubled to know which way to turn for help, and while puzzling over the matter the following note was handed in:

DEAR FRIEND:—Please find enclosed one hundred dollars (\$100) for the benefit of the Orphan Asylum. THOMAS C. YERXON.

The change of countenance, and the weight that was lifted from our hearts by the hope this gift inspired, can only be understood by those present. Appreciating the gift as we did at the time, a vote of thanks seemed doubly to express our feelings. May the giver have both the satisfaction of good deeds done here, and the reward that awaits hereafter.

Amusements.

ACADEMY OF MUSIC.—To-night the British Blondes appear in "Lana," with a strong cast of artists, nearly all of whom are stars in the profession. This burlesque troupe has just completed a successful engagement at Columbus, Ohio, and have been popularly received wherever it has appeared. Many novelties in scenery, music, etc., will be presented, and all the glittering paraphernalia of stage trappings will be brought into requisition to make the play a grand success.

MASONIC HALL.—On Saturday evening Emerson's Minstrels were greeted by a crowded house, just as we predicted in the afternoon. For this kind of entertainment, Billy Emerson beats the world. He is simply huge. In his specialties he was called out until he positively refused to appear again. He is the Prince of Ethiopian performers, and has a cluster of good performers about him. Entire change of programme to-night.

TO-morrow evening, Prof. Macallister will begin his five days' engagement at this hall. During his convalescence he has perfected himself in several new tricks and novelties, which he will perform for the first time before an Indianapolis audience.

METROPOLITAN HALL.—Besides the usual performers at this theater this week, Herndon's Pantomime Troupe will produce "Jack and the Bean Stock" in splendid style. New scenery, elegant costumes, etc.

EXCHANGE THEATRE.—The new play of "Attilla's Revenge," which has been in rehearsal for several weeks past, will be put upon the boards to-night. In connection with this, several other new features will be dealt out during the week.

THE COURTS.

CIVIL CIRCUIT.—No. 3,769. Jacob Rhinebold vs. Philip McNabb et al. On notes. Trial by Court with finding for plaintiff for \$588.89 and judgment.

4,387. The Clayton and Danville Gravel Road Company vs. James W. Hamrick. From Hendricks County Circuit. Dismissed by plaintiff.

4,512 and 4,513. Andrew J. Van Sickle et al., and Washington Black et al. vs. the Center and Warren Township Gravel Road Company. Suit to restrain the defendant from the collection of assessments. Both cases dismissed by the plaintiffs.

4,562. Frederick Westling et al. vs. Arthur L. Wright. Action to enjoin the collection of taxes for gravel road and other purposes. Dismissed by plaintiffs.

4,023. Francis M. Kistler vs. Jacob Rinkie. Suit for damages sustained on account being shot by defendant. On trial by jury. The defendant is now in the Southern Prison for the shooting.

COMMON PLEAS.—Annie K. Lawton vs. Andrew Lawton. Divorce. Motion of defendant for new trial overruled by the Court, and decree granted according to the findings. On motion of defendant's counsel, the cause was taken to the Supreme Court.

Court adjourned until the seventh day of November.

CITY.—Jerry Brown, for driving across a sidewalk under mitigating circumstances, paid a fine of \$2.65.

Andrew Fye associated publicly with a prostitute and paid an assessment of \$9.95.

William Wainwright, William Hartwell, E. Ruin, Thomas Dougherty, Charles Whiteside, Budd-Stewart, Michael Rabbett, James Barrett and George M. Ross were all sent to jail for being disorderly drunk.

Charles Dixon, Anna Smith, C. Vanlaningham, Bernard Mueller, Michael McKenna, Frank Freilingsen and George Robertson, all paid or secured the usual fine.

Thomas E. Hall, charged with profanity, paid a fine of \$7.00.

The trial of Newton Tingle, for assaulting Joseph D. Camp, was set for next Thursday, at 2 1/2 o'clock p. m.

John D. Murphy, who made the assault upon Officer Barbee, at the Fair Grounds on Saturday, was arraigned, and pleading not guilty, his case was set for Wednesday morning.

A Great Thing It True. The Mahoning Register of this week says: Within the past week a new discovery has transpired which bids fair to electrify this part of the State, and add greatly to the fame and wealth of Northeastern Ohio. It is nothing more nor less than the discovery of gold-bearing quartz rock at Nelson's Lodge, near Garrettsville, and the fact of the discovery of this country by a number of Youngstown capitalists, whose fame and enterprise alone give credibility to a report which otherwise might seem sensational and groundless. The facts as reported to us are as follows: Some time since a returned Californian, visiting Nelson's Lodge, noticed that the rock in that vicinity bore a great resemblance to the gold-bearing quartz of California.

The matter was communicated to some of our Youngstown men of enterprise, and immediately a company consisting of Messrs. Thomas Struthers, John Stambaugh, Charles D. Arms, Jacob Stambaugh, John Tod and Evan Morris, leased all the land in that vicinity. They now hold leases of land around and including the Lodge, to the extent of twenty-five hundred acres. A specimen of rock has been sent to the Assay Office at New York, and the assay which has been received shows a richness of ninety dollars and fifty cents per ton, which can be made a profitable yield in this country. The assay is in this city, and no slight sensation has been aroused over the discovery of this new mineral wealth in our vicinity. What degree of reliance may be placed upon the fact that the enterprise is difficult to be so certain. One thing is certain, that the gentlemen who have charge of the matter are able to test it thoroughly, and if they find success they will receive the hearty congratulations of all who know them.

Ship Lost in the Ice.

The sailing ship Hansa, belonging to the North German North Polar Expedition, was crushed by the ice on October 19th, 1869, on the east coast of Greenland, in 71 degrees north latitude. The news of this disaster was first received in Bremen, by telegraph, on September 1st, the crew, thirteen in number, having arrived at Copenhagen by the ship Constance. The expedition, composed of the steamer Germania, Captain Koldewey, and the sailing ship Hansa, Captain Hageman, sailed from Bremerhaven in July, 1869. On September 6th, 1869, the Hansa was caught in the ice, in 74 degrees north latitude and 17 degrees west longitude; and on October 19th, in 71 degrees north latitude and 11 degrees west longitude she was abandoned by the crew, who, with their boat, took refuge on an ice island, twenty-eight miles in circumference. The crew spent two hundred days on the island, living part of the time in a house built of coal, and part of the time in a small boat. During the twenty-eight weeks the island was driven 800 miles south, and diminished in size until it was only 200 yards in circumference. The crew then took to the boat, and on June 13th, 1870, landed at the settlement of Frederikshavn, and then proceeded to Copenhagen in the Constance.
